

Timestamp	How SOFT did Northern Suds make your laundry?	How well did Northern Suds CLEAN your laundry?	Overall, how satisfied were you with Northern Suds?	How did Northern Suds do with stains? Did it remove any of the following stains?	Did you experience any negative effects from the detergent? Write none if no.	Did you use all the detergent?	If yes to previous questions, about how many loads did you get out of the bag?	Knowing how the product performs, would you purchase it at the store?	How much would you pay for the detergent?	Would you recommend this product to a friend?	Any comments?
11/25/2013 20:19:12	4	5	5	Coffee, Red Sauce, Grease/Oil, molasses	none	No		Yes	\$7.5	Yes	I was very pleased with this product. I tested it on several items that were quite soiled to specifically see how this product would perform. It did very well and I would purchase it without hesitation. I also like the fact that it's gentle on the environment.
11/25/2013 20:23:41	5	5	5	Make-up	None	No		Yes	\$10+	Yes	Clothing was exceptionally soft and my sensitive skin was happy that I switched!
11/26/2013 7:04:14	3	3	4	Not Applicable, I did not use Northern Suds on any stains	none	No		Yes	\$6.5	Yes	Northern Suds worked well with all the products I already use, i.e. : bleach and fabric softener. There is a lot of product in a small package which I like for environmental reasons, its less waste.
11/26/2013 9:21:38	4	4	5	Not Applicable, I did not use Northern Suds on any stains, There were no stains that I remember. But I will take note of when I do have a stain to remove	None	No		Yes	\$9	Yes	Northern Suds left my clothing clean and soft without the need for any additives. I love using it knowing that it is all natural and handmade. I would recommend it to anyone looking for a great detergent!
11/26/2013 9:38:22	2	2	3	Not Applicable, I did not use Northern Suds on any stains	None	Yes	I only used one load.	No	\$6.5	No	That product did not thoroughly break down - which could be due to my not following directions correctly. I was concerned it didn't rinse well - but I think it did. I would rather have it already mixed into a liquid, which is retrospect, is somewhat foolish, because why would one wish to pay for "water" which is the main product in the liquid version. My preference would be to have an all purpose cleansing agent that watched body, dishes, clothes, cars, etc - much like Dr. Bonner's. Therefore, I can't wait to see the rest of the product line, should that get developed.
11/27/2013 12:11:54	4	4	4	Not Applicable, I did not use Northern Suds on any stains	none	No		Yes	\$9.5	Yes	After letting the clothes, towels, and bedding sit for a day a slight musty fragrance developed. Could we possibly create a product that has a slight scent to it and still be eco friendly? (Yes, I am a bad hippy and like smelly stuff) Otherwise... After using Northern Suds washing detergent my clothes were extra soft with out the mildew of store bought detergents. I also found it works alot better then store bought detergent in the fact that it took the scent out of my workout wear which when worn starts to emanate almost a metallic smell. I give this product two thumbs up!!! Finally, a product that works and isn't made by large capital driven corporations!
11/28/2013 23:07:41	4	5	5	Not Applicable, I did not use Northern Suds on any stains	No	No		Yes	\$8	Yes	I like how environmentally friendly it is. I'd like to know what the effects are on the earth in the after product-I know fabric softener is very bad for the environment but I'm not sure why.
12/2/2013 11:10:20	2	2	2	Not Applicable, I did not use Northern Suds on any stains	No	No		No	\$6	No	Honestly, I don't feel like my clothes were as soft or as clean as with the regular detergent I use, which is an all-natural one. I'm sorry, but really wanted to be honest here. Stopped using it after a few loads. Also, ended up with some soap that didn't rinse off.
